ET.PM3: Presentation and Demonstration

Instructions for Presentation:

- Duration: approx. 10-12 minutes

- Location: rooms TS 04.11 / 04.18

- Content: Present your cable monitor with its outstanding features to a technically interested audience.

- Technical criteria: technical correctness
technical content (selection of presented topics)
Q&A (competence in answering the technical questions)

- Linguistic criteria: structure / slides / vocabulary / grammar

- Tips: see handouts/slides on effective presentations in the pool

Instructions for Demonstration:

- Duration: approx. 5-8 minutes

- Location: rooms TS 04.11 / 04.18

- Content: Demonstrate the correct functionality of your cable monitor.

- Technical criteria: shown functionality (fulfilment of requirements)
demo procedure (technically correct and well prepared)

- Tips: - demonstrate the features/functions slowly and calmly

    - make sure necessary details are visible to all members of the audience (e.g. present measurements on display to each lecturer)

    - use specific language and be as accurate as possible

    - make sure that transitions between speakers are clear

    - practice demonstration several times
